The Port of San Diego approved a \$58.6 million contract this week to widen the San Ysidro Outlet mall to make room for a much-needed major upgrade for the busy border crossing. The approval by the Port Commission on Tuesday evening came a day after the San Diego County Board of Supervisors approved the general plan for a two-mile expansion of the 8.4-mile-long mall. The board also voted unanimously to grant the design-build contract for the project to the joint venture of CIM Group and AECOM. “This is the first phase of a major transformation of the San Ysidro border crossing, and we are hopeful that this investment will begin to drive new investment in local, state, and federal government,” said Democratic Supervisor Janice Hahn. “This is good for San Diego and for the region, and it is good for the workers who are employed by the Port of San Diego and by our private firms.” Hahn added that she is working with the city attorney to develop a plan for dealing with a possible legal challenge related to the project. A similar project in Texas along the Gulf Coast drew criticism when it was first proposed. The San Ysidro project is needed to accommodate the rapidly growing flow of shoppers and shoppers who cross the border at San Ysidro from Tijuana, Mexico. The San Diego County grand jury report last fall cited the need for an expansion that would add 20 to 30 lanes of traffic along the mall. The mall’s existing layout would require the construction of a new entryway onto the mall and a new exit. The project also includes a \$3.5-million pedestrian bridge connecting the mall and the Oceanside area, a \$6.4-million bridge between the mall and the San Ysidro Grande Plaza, and \$25 million for miscellaneous infrastructure improvements. The project is expected to be completed by 2019. sandra.dibble@sduniontribune.com (619) 269-3631 Twitter: @sandradibble
