UpNote [32|64bit]

UpNote Crack Keygen is a sleek and user-friendly application that helps you take notes and organize them in notebooks. Installation In order to download and install this utility, you need an account to login to Microsoft Store. Once you press the dedicated button, the entire process is fully automated, so there are no variables to configure. This, together with the attractive and intuitive GUI of UpNote, all make the app suitable for newbies as well as experts. Polished appearance The looks of UpNote are polished and sleek-looking, especially considering you can switch the app's theme between dark and light according to your preferences. When you create a new note, you can access the Focus mode, where all the notes, notebooks and menus are hidden, so you can work in a distraction-free environment. Customize many text parameters No matter if you need to quickly jot down some piece of information or a fleeting thought, you might eventually need to turn some phrase or word to bold, italic or underline. If you need mode than to alter the formatting, you can tamper with the alignment or with the heading style. You can also insert lists (with checkboxes, bullets or numbers) or simply modify the indent or outdent. When it comes to put some color emphasis on a fragment of your note, you have two options: you can either color the actual text, or you can rely on a colored highlight. The downside is that only a limited number of shades are included. Insert images and other elements When you want to add even more information to your notes, you can effortlessly insert hyperlinks or quotes. If you want to insert an image, you only need to select its place within the text, then browse to its location (JPEG, PNG, BMP and GIF are supported). You can also adjust its size (small, medium or large). Conclusion All in all, UpNote is a handy utility for taking both quick notes, and more sophisticated ones, thanks to the plethora of elements you can add. Supported versions - Windows 10 - Windows 8.1 - Windows 7 - Windows Server 2008 R2 SP2 KEYMACRO - Create notes and notebooks, customize text, insert hyperlinks, pictures and more Cost: Free Requires:.NET Framework 4.5 Available languages: en-US,es-US,fr-FR,de-DE,it-IT,ru-RU, 81e310abbf

Create, organize, manage and collaborate on notes and notebooks

What's New in the UpNote?

It's a nice little note-taking app that uses Microsoft's own WordPad file format and supports many document formats. It has an easy-to-use UI and plenty of powerful features, like split panes, automatic searching, support for images and insertable links. You can also import Google Docs and Evernote's note files. Some downsides are that it's a Windows-only app, and there are limited colored backgrounds. UpNote is a small note-taking app for your Windows PC that allows you to jot down quick notes and organize them into folders and notebooks. Evernote-style feature It resembles Evernote app in many respects. It offers a simple and easy-to-use interface, supports plenty of basic operations (including search), and it also makes it easy to share and export the note files. Aside from these common features, you will probably find other nice touches that make the UpNote app a solid option for a novice. The software supports multiple different note types, and includes a file browser so that you can use it to import any kind of file. The UpNote interface is designed to be simple and pleasant. Some aspects, like the navigation buttons, are not customizable. Other than that, you can also select the layout and use the focus mode for more work. When it comes to exporting your notes, you will find plenty of options, including images, videos, PDF, EML, CSV, CSV + HTML and RTF. UpNote comes with a built-in WYSIWYG editor that makes it easy to customize and format your notes. Screenshot gallery The software supports many image formats and allows you to add them to your notes. You can crop them, resize them and set their transparency. This, together with the support for many fonts, makes it easy to create not only plain notes, but also images that look professional. Tidy feature For some people, it might be useful to use the UpNote app even when they are not editing notes. That's why you can toggle the focus mode to get a clean, distraction-free workspace, and you can also turn it off. There are other features included in UpNote that make it more useful than just a quick note-taker. You can customize the items included in the New Note screen, and they include a simple text editor, images, bold and italic, lists, sticky notes and colored backgrounds. The app can create sticky notes and there is also a visual preview that you can use to edit them. Conclusion The UpNote app is a powerful tool for organizing and taking notes, thanks to the powerful WYSIWYG editor and a number of additional tools. UpNote Description: No matter what platform you
