## Essilor Kappa Ctd Manual

May 8, 2019 â€” Hello everyone! I recently bought an Essilor Kappa CTD M15 and am unable to properly connect the tracer to the edger. To do this, you need to install and run it. But for some reason, when you press a button on a computer or when you click on the screen of a smartphone, nothing happens. I do not know what to do. Please help me. I want to know why I can't connect the tracer to the edger. I don't understand what's going on because
