Russian Life Simulator: From the very beginning, living in Russia has always been a challenge. You're bound to find a wall of borders around you, an endless stream of bureaucracy, and a seemingly insurmountable complexity of life in general. Nevertheless, you are given this challenge, and you may have a chance of conquering it. But if you have decided that you want to become a part of the nation of Russia, the country which is so far the most political and, in a certain sense, the most developed in the world, then you are sure to find many things interesting and surprising. Not every Russian knows how to play their role, though, but it is not a problem for you to try yourself. At least, it is not a problem if you have your car and a deep desire to explore the whole of Russia. You will find many things in Russia. It is a land full of secrets, full of myths and legends. To the locals, Russia is a country of mysterious legends and fairy tales, and for you as well it is the perfect place to start a new life and learn everything about the culture and history of Russia. You will find such things as their architecture, traditions, and beauty. At the same time, it would not be realistic to let you travel around without giving you a chance to get acquainted with the locals and their ways. There are still many people who never became members of modern society, never made use of many technological innovations. It is not just that the Russian people are more diverse than most other nations, but they also continue to live in a manner quite similar to that of the past centuries. The Russian also live in a rich landscape which only few other nations have. The mountains, the highlands, the seas and oceans, and even the rivers seem to be alive. There are people, cultures, plants, and animals which cannot be found anywhere else. You just need to go to your newly found country, and try living in it. To explore Russia and the life there in the first person is a big challenge, but it is also a great experience. There are so many things to do that you cannot possibly visit all of them in a single game, but one does not have to become a pioneer in a land so rich
