I have a relatively old computer, an Intel Core i3 3225u 2.3 GHz and 4GB RAM. I have Windows 8.1. I also have Windows 8.1 x64. I've been wanting to use either Ozone 8 Advanced, or Neutron 2 Advanced for quite some time, since they seem like they would be perfect for my hardware. I don't have any software, except for a few games. I have been having a problem where both Ozone 8 Advanced, and Neutron 2 Advanced are not working, and I have also tried iZotope's phone crack, and that has also not worked. When I tried to install them, they gave me a pop-up telling me that my computer was not compatible, but their website stated that their software was compatible for. I have searched to the best of my ability to find a solution to this issue, but have only found people who are having issues like the ones I have having, but no resolution. My question is, is there a way to get this software to work, if so, how? A: As mentioned in the linked Q&A your computer is not compatible with Ozone 8 Advanced or Neutron 2 Advanced.
